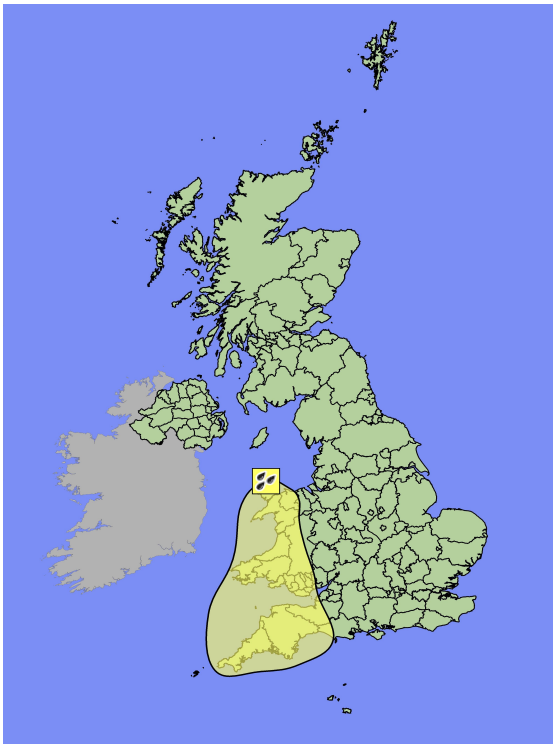
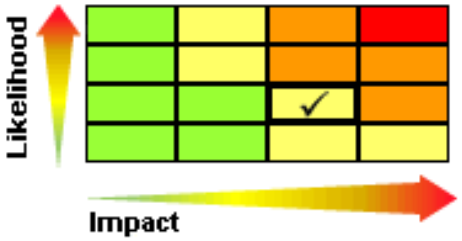
National Severe Weather Warning Service





Chief Forecasters Assessment
An area of low pressure and associated frontal system, are expected to bring periods of heavy rain and showers to parts of Southwest England and Wales during Monday. The location and intensity of the heaviest rain is uncertain, but it seems likely that around 15-25 mm of rain will fall quite widely, with some locations possibly having in excess of 50 mm.

Given the saturated ground, there is potential for the rainfall to cause significant disruption in some areas.

The Met Office have issued a **Yellow Alert** of **Rain**

Valid from **00:00 on Mon, 26th Nov 2012** until **21:00 on Mon, 26th Nov 2012**

Heavy rain is expected to spread northeastwards during Monday, to affect parts of southwest England and Wales. The public should be aware of the possibility of flooding and disruption to travel.
